

# Gas Safety Information

Always read and observe appliance manufacturer and our instructions.

## IF YOU CAN SMELL GAS OR SUSPECT A LEAK:

- Do not switch any lights or electrical equipment on or off.
- No matter where you smell gas close the manual outlet valve on the tank and for the property.
- If the smell or leak is indoors, open doors and windows.
- Call us so we can come and make the gas supply safe.

## IF A FIRE OCCURS:

- **Dial 999** to call the fire brigade. Ensure you tell them an **LPG tank** is on the premises.
- Leave the premises and go to a **safe place**.

## INSTALLATION AND SERVICING

- By law gas fixed indoor appliances **must be** installed and maintained by a GasSafe<sup>®</sup> Registered installer.
- **All gas appliances need regular servicing.** Indoor appliances should be serviced annually. Read the appliance instructions for guidance. Never tamper with the equipment.
- **Always** provide adequate ventilation for appliances.
- **Never** use an appliance or equipment which is damaged in any way.

## CARBON MONOXIDE

- Carbon Monoxide is a poisonous gas which can be formed by burning any fuel if the appliance is not properly installed or maintained.
- Carbon monoxide detectors are widely available and it is **strongly** recommended that every household has one.
- If you ever suffer any of following symptoms when appliances are in use: headaches; nausea; dizziness. Then turn them **off** immediately, and have them checked by a GasSafe<sup>®</sup> Registered installer.
