

Gas Safety Information

Always read and observe appliance manufacturer and our instructions.

IF YOU CAN SMELL GAS OR SUSPECT A LEAK:

- If the smell or leak is indoors, open doors and windows.
- Call us so we can come and make the gas supply safe.

IF A FIRE OCCURS:

- **Dial 999** to call the fire brigade. Ensure you tell them an LPG tank is on the premises.
- Leave the premises and go to a safe place.

INSTALLATION AND SERVICING:

- By law gas fixed indoor appliances must be installed and maintained by a GasSafe® Registered installer.
- **All gas appliances need regular servicing.** Indoor appliances should be serviced annually. Read the appliance instructions for guidance. Never tamper with the equipment.
- **Always** provide adequate ventilation for appliances.
- **Never** use an appliance or equipment which is damaged in any way.

CABRON MONOXIDE:

- Carbon Monoxide is a poisonous gas which can be formed by burning any fuel if the appliance is not properly installed or maintained.
- Carbon monoxide detectors are widely available and it is strongly recommended that every household has one.
- If you ever suffer any of following symptoms when appliances are in use: headaches; nausea; dizziness. Then turn them off immediately, and have them checked by a GasSafe® Registered installer.
